Vincent Marsi

Bachelor of Science
Graduate Dip Environmental Management,
Graduate Dip Project Management,
PRINCE2, MSP & P3O Practitioner

TRAINER PROFILE

Since embarking on a career in project management, Vincent has worked with government, NGOs and private sector organizations across Australia, Asia, and Europe. He has worked in the fields of science, health services, environmental management, information technology and management consultancy.

Vincent has led and contributed to a diverse range of projects from improving health services, research and development projects to establishing environmental monitoring systems.

Throughout his career, Vincent has facilitated initiatives to improve project management capabilities within organizations and pioneered the adoption of best practices in project and programme management.

Vincent has trained thousands of people in accredited project management courses in over 20 countries. He is an experienced project auditor and has provided best practice advice to over 100 projects worldwide.

Supporting Science through Quality Service

PRINCE2 Foundation

Course Information

Adopted by many government, private enterprises and international organizations and practiced by +600,000 users world-wide, PRINCE2 is a project management methodology that benefits projects of different types and sizes. The Foundation course is a 3-day program which provides a comprehensive coverage of PRINCE2 and demonstrates the application of the elements that make up this methodology.

COURSE OBJECTIVES

At the end of the Foundation course, participants will understand:

The value, structure and terminology of PRINCE2

The purpose and content of the PRINCE2 elements

Roles in a PRINCE2 Project

The relationships between project management principles, processes and themes

When and how to apply PRINCE2

COURSE COMPOSITION

PRINCE2 Principles

- Continued business justification
