

MS. PARINYA CHUACHOOCHAT
Agricultural Officer
Thailand

I. REASONS FOR COMING

I would like to improve skill about rice production and extension. I would like to learn/exchange/share experience with researchers from other countries. I would like to build connections with young researchers.

II. HIGHLIGHTS

Process about rice production. Planting/harvesting/marketing. Rice extension in Philippines and ICT technology. Rice breeding, Genebank.

III. CHARTING THE NEXT STEP

Improve my job about rice extension. Ex. ICT technology, teaching younger farmers to use RKB/ICT. Develop training course for farmers and young farmers. Plan project and study rice extension in Thailand.

IV. EVALUATION OF THE COURSE

I think this course can develop my skill about rice production and I can learn rice knowledge about extension, rice research technology for rice production. This course was very enjoyable.
